

Vijayalakshmi S

Frontend Developer | [Portfolio](#) | [LinkedIn Profile](#) | [Mail to](#)

Summary

Frontend Developer with 1.5 years of experience in full-stack web development using the MERN stack. Focused on writing clean, maintainable code and building user-friendly interfaces.

Skills

- **Frontend** - HTML, CSS, React, Next, Flutter
- **Database** - MongoDB
- **Programming Language** - Javascript, Java(Core)
- **Backend** - Node js
- **Design Systems** - Bootstrap, AntDesign
- **Tools** - Postman, Git, Hostinger, Vercel, Wordpress

Professional Experience

Associate Software Developer
Brassy Technologies

Dec 2023 - Present

Mobile Application

TechStack - Flutter (UI Development)

- Crafted an engaging **onboarding experience** using Flutter, improving first-time user retention by **30%** through interactive screens and smooth animations.
- Developed a **My Account** screen with modular UI components, allowing for seamless integration with user profile data and enhancing navigation efficiency by **25%**.
- Built a **Payment** screen with secure credit card UI elements using custom widgets, reducing form abandonment rate by **40%**.

WebApplication

[AllGoodFinancialServices](#)

TechStack - Nextjs, Nodejs

- Developed a **responsive website** using Next.js, improving load times by **40%** and enhancing user engagement across devices.
- Engineered backend functionality in Node.js and MongoDB, enabling efficient data flow and reducing form processing time by **35%**.
- Built secure, **real-time validated forms** that improved lead capture quality and reduced data errors by **50%**.

Mobile Application

TechStack - Nodejs, MongoDB

- Implemented **RESTful APIs** in Node.js to streamline mobile-to-backend communication, reducing latency by **25%**.
- Enabled **scalable architecture** to support concurrent mobile users with minimal downtime and faster data retrieval.

WebApplication

[BrassyAcademy](#)

TechStack - Nextjs, Nodejs

- Delivered **responsive, user interfaces** in Next.js, increasing mobile user retention by **20%**.
- Programmed backend APIs and **MySQL-based models** for course management and user enrolment, improving system reliability and uptime.
- Enhanced frontend-backend integration to support **real-time data updates** and scalable course delivery.

TechStack - Wordpress

- Optimized a fully responsive WordPress site with custom styling, improving user engagement and reducing bounce rate by 18%.
- Integrated payment gateways and Shiprocket shipping API, enabling seamless checkout and logistics functionality.
- Managed Hostinger-based deployment and uptime monitoring.

Education

Bachelor of Information Technology - Jeppiaar Institute Of Technology
First class with **8.21 CGPA**

2019 - 2023

Projects

Blood Bank Automation System
TechStack - RPA, Make.com

- Launched an automated workflow for blood bank processes using Make.com, reducing manual data entry time by approximately **60%** in simulated test environments.
- Automated donor/recipient registration, inventory tracking, and emergency alerts across platforms like **Google Sheets** and **Gmail**, improving response coordination.
- Enabled real-time notifications to hospitals and stakeholders, boosting accuracy and responsiveness in emergency scenarios by **30%** during project trials.

Movie Ticket Booking Web Application
TechStack - React.js, React-Bootstrap, Ant Design

- Engineered a fully responsive ticket booking interface using React, achieving **95% mobile responsiveness score** via Chrome DevTools Lighthouse.
- Integrated social login (Google, Facebook) to enable secure access and improve user onboarding time by **40%**.
- Designed and implemented add-to-cart and checkout flows to simulate real-time ticket purchases for up to **100 concurrent users** during college demo day.

Certifications

[View my certifications](#)

-
- **Diploma of Completion – RPA Starter** by UiPath Academy
 - **Introduction to Internet of Things (IoT)** by Cisco Networking Academy
 - **Design Thinking – NPTEL** (Score: **86%**)

Achievements

-
- **District-Level** Carrom Player
 - **Member Development Head**, CSI Student Chapter, Jeppiaar Institute of Technology
